

# DONE RIGHT. RIGHT NOW.

**PARTNER WITH MINER, THE TOP CHOICE FOR DOCKS, DOORS AND MORE.**  
With MINER, you will increase facility uptime, reduce total cost of ownership and ensure safety and sustainability for you and your employees.

When you're looking for a partner to make sure your facilities are always productive and safe, MINER is the service provider for you. With local service professionals across the U.S., scalable service solutions and breadth of equipment options, you're guaranteed best-in-class service, delivered right every time.

Your facility demands attention in many areas: assessing equipment suitability, selecting high-quality new assets, professionally installing

those purchases and designing a proactive and effective maintenance strategy to maximize your return on investment.

Whether you need an emergency repair or consultation on a new construction project, we're focused on delivering the right application and solutions that operate for the long haul.

As your facilities partner, MINER can help you address the most critical aspects of your operations:

 **Reduce Downtime and Prevent Costly Repairs**

Proactive maintenance practices anticipate and resolve problems before they occur—reducing higher overall costs and ensuring every aspect of your facility is operating at peak effectiveness and efficiency.

 **Increase Facility Uptime With Localized Service**

Repairs will be done right—right now! MINER offers you national scale with personal, localized service. With over 1,000 service professionals nationwide, we are ready 24/7 to serve your maintenance and repair needs.

 **Provide Best-in-Class Safety Practices**

Our service programs provide performance and safety solutions for regulatory and company compliance tracking, including OSHA, ADA, FDA, fire doors and warranty support. We protect your employees and your business.

## MINER LEADS THE WAY

Our experts work with you to identify unique issues and areas of improvement based on the equipment in use and your company’s objectives. We provide customized strategies, crafted with ROI in mind. Does your current provider check all the boxes?

## OUR INDUSTRY-LEADING CAPABILITIES INCLUDE:

### Facilities Maintenance:

Through both proactive strategies and emergency responses, we maintain every important piece of logistics equipment, from warehouse dock levelers to commercial sectional overhead doors and beyond.

### Equipment Install and Repair:

We work on all types of equipment. Our brand independence means we can also recommend the right equipment for replacements and new construction alike, providing our clients with peace of mind in equipment selection.

### Construction Services:

We have a dedicated new construction division that can help you design and build a new facility or remodel an existing structure to new specifications. Our team works with end users, developers, architects and contractors to optimize the project every step of the way.

# 70%

of all reported accidents could be avoided with proper safety precautions

# 80%

of mechanical issues are preventable with maintenance

# 80%

or more of our projects are fixed the first time onsite with our fully stocked trucks

Since 1967, MINER has provided the best customer service in the industry, and that promise will never waver. We make installing and maintaining your docks, doors and more simpler, easier and safer. With our same-day, next-day service promise, you know MINER will be there to help when you need us most.

## MINER HAS YOUR SERVICE NEEDS COVERED

Whether you have equipment down today or want to maximize uptime tomorrow, trust us to design, install, repair and maintain your loading docks, commercial doors and related facility accessories at a competitive price—safely, efficiently and reliably.
